

Business Bootcamp Tips for Success:

Access to a space with strong wifi

You'll get the most out of our class time if you're not worried about glitchy videos. If you don't have great wifi at your house, try a public library near you!

Limit distractions

We totally understand that kids and pets might make a visit during the session. That's totally fine! But if you are able to find childcare or put your pet in a different room, you'll be able to get the most out of our sessions.

Come prepared

There is a lot of good information packed in four weeks of Business Bootcamp. Have a notebook and pen handy to take notes. Also, being punctual to each class will ensure that you get all the helpful information you need!

Basic understanding of Google Sheets

In Business Bootcamp, we utilize online tools such as Google Sheets. It's important to know how to navigate Google Sheets, such as: making a copy of a sheet, filling in cells, etc. If this is your first time using Good Sheets, check out this helpful video: <https://youtu.be/FlkZ1sPmKNw>

Watch for emails from SCCF

Each week we send you detailed emails with takeaways from the last class and what to expect for the next class. We give suggestions on things to work on outside of class that will improve your chance of success in Business Bootcamp.

Take advantage of resources

Throughout the course, we provide helpful resources that you can take advantage of. Resources such as helpful links, contact information, connections, and more! Make sure you utilize these!

If you have any questions at all about Business Bootcamp - feel free to reach out to Jessica@sccfva.org!
